

Offham Herd

Pedigree Sussex Cattle

SIGNET Recorded CHECs Accredited High Health Status

Offham Crusader 4th
Sussex Champion
Heathfield Show 2022

The Offham Herd was established in 1991 with the aim of producing excellent cattle capable of thriving on poor SSSI grasslands.

Our stock are SIGNET recorded to ensure that only animals with top genetic merit enter the herd.

All cows calve outdoors in the Spring and Autumn so there is a strong focus on good tempered, easy calving stock which require minimum intervention.

We have a strong emphasis on developing polled bloodlines with the majority of calves now polled.

We are accredited clear of Johnes, Lepto, IBR and BVD.
